To All Interested Parties:

This is a reminder that the following changes will take effect on January 1, 2010 with regard to the Unrestricted and Restricted Construction Supervisor License Exams.

1. Each exam will be expanded by 10 questions, making it a 60 question examination.
2. New content areas will be added to each exam, including:
 - Questions relating to [521 CMR](#) - Architectural Access Board Regulations (AAB)
 - Questions relating to [Occupational Safety and Health Administration](#) standards for job-site safety
3. Existing content areas will be expanded relating to:
 - Energy conservation and
 - Administrative requirements
4. Energy related questions will be drawn from the [International Energy Conservation Code](#) (IECC), 2009

Please see the revised [Candidates Bulletin of Information](#) for further details of expanded exam requirements, beginning on page 9.

Also, please be aware that the exam application now requires a candidate to provide a contact e-mail address. [Renewal forms](#) will also require an e-mail address. In the not too distant future, the Department will begin communicating to licensees exclusively by e-mail for all information, including renewal notices. Consequently, the Department requires an **accurate e-mail address** for all new and renewal license applications. Applications received without an

e-mail address will be considered incomplete and returned to the licensee. Please see page 13 of the [*Candidates Bulletin of Information*](#) for further details.

Please feel free to return a message if there are questions.

Sincerely,

Robert Anderson

Chief of Inspections- Building
Department of Public Safety
