Town Electricity Aggregation Program Automatic Enrollment Notification

[MONTH] [DAY], 202X

Dear Northborough Electricity Customer,

This letter contains important information about the Town's new electricity program, **Northborough Power Choice**. The program is a Town alternative to other electricity offers, but without high pressure or fees. More than 170 Massachusetts communities already have similar programs.

If you received this notice and you take no action, you will be AUTOMATICALLY enrolled in Northborough Power Choice, in accordance with state law. However, participation is not required.

If you participate, National Grid will continue to deliver your electricity and send your electric bill, but you will have a new price for the Supply Services portion of your bill. Program benefits include stable prices, consumer protections, and a lower price than National Grid's current residential Basic Service price, though future savings cannot be guaranteed.

**Deadline to opt out
before automatic enrollment:**

[MONTH] [DAY], 202X

Your choices

With Northborough Power Choice, you have three choices:

- 1 AUTOMATIC ENROLLMENT in Northborough Standard.** If you take no action, you will be enrolled in the Northborough Standard option, and your Supply Services price will be **XX.XXX ¢/kWh**.
- 2 Choose the Northborough Green option:** You can choose to receive all of your electricity from renewable resources for **XX.XXX ¢/kWh**.
- 3 Choose NOT to participate and remain with National Grid's Basic Service.** Residential customers that opt out will remain with National Grid's Basic Service price of **XX.XXX ¢/kWh**. Please see the back for National Grid's commercial and industrial prices. ►

To avoid being automatically enrolled, you must do one of the following before [MONTH] [DAY], 202X: Sign and mail the enclosed reply card, opt out online at NorthboroughPowerChoice.com, or call 1-833-393-5679. You may also try the program and opt out anytime in the future. There is no penalty or fee to opt out.

All Northborough Power Choice prices are fixed until **[MONTH] 202X**. In comparison, National Grid's Basic Service prices change every 6 months for residential and commercial customers and every 3 months for industrial customers.

Northborough Power Choice offers the potential for savings compared with National Grid's Basic Service prices, but because National Grid's future prices are not known, future savings compared with National Grid cannot be guaranteed.

Changes to your bill

If you participate in Northborough Power Choice, you will see two changes on your National Grid bill:

1. Your electricity supplier will be [SUPPLIER NAME].
2. Your Supply Services charge will be calculated using a Northborough Power Choice price instead of National Grid's Basic Service price.

Please see the back for more details. ►

It's your choice...

If you do nothing, you will be enrolled in the Northborough Standard option. The following chart can help you decide whether to remain with Northborough Standard or make another choice. To make another choice, visit NorthboroughPowerChoice.com or call customer support with Northborough's program consultants at 1-833-393-5679.

* Program prices include a \$0.001/kWh administrative fee. Program prices could increase as a result of a change in law that results in a direct, material increase in costs during the term of the electric supply agreement. For those customers subject to electricity taxes, taxes will be billed as part of the Northborough Power Choice power supply charge.

Additional information

If you are eligible for a low-income discount or fuel assistance, those benefits will continue in Northborough Power Choice.

If you have a tax-exempt account, you are responsible for identifying and requesting an exemption from the collection of any tax by providing appropriate tax-exemption documentation to [SUPPLIER NAME]. Visit NorthboroughPowerChoice.com to learn more.

If you have solar panels on your roof or you participate in a community solar program, you will continue to receive solar credits and/or solar incentive payments, and participating in Northborough Power Choice will not change how they are calculated.

If you have received this letter and also you have signed a contract with an electricity supplier, you may have signed your contract after this mailing list was created. To continue receiving electricity from the supplier you chose and prevent any early termination fees from that supplier, you must opt out of Northborough Power Choice.
