

TOWN MEETING

ELECTRONIC VOTING INSTRUCTIONS

INTRODUCTION

- This meeting will be interactive - you will be asked to vote using a wireless remote device that you've been given
- Please don't take the remote with you – it doesn't work outside of this room and has a high replacement cost
- Return the remotes to the designated staff collecting them

ELECTRONIC VOTING

Each registered voter has received a (randomly assigned) voting device upon check-in

These devices use reliable radio frequency and are secure.
NO INTERNET IS USED

If you leave your seat for any reason, return your voting clicker to a designated staff member, and it will be given back to you upon your return.

When the Town Meeting has concluded, all voting devices must be given to a staff member positioned at the exits. Please do not leave with the voting devices. They do not work outside of this room.

HOW TO VOTE

- The Moderator will declare Open Vote and the Close of Vote
- To respond, simply press the button on the keypad that matches your desired answer:
1A = YES
2B = NO
- Vote will be submitted/sent automatically and confirmed by showing "OK" on the display after each vote (or change of vote)
- No need to press "Send" (paper plane)

WHEN IS THE VOTE COUNTED?

- Only respond when the vote is open
- "OK" will appear on your keypad display, confirming receipt of the vote
- If you're not sure, vote again
- You may correct your previous votes
ONLY YOUR LAST VOTE COUNTS
- Recorded results will appear on large overhead screen

**Do not forget to turn in
your voting devices!**

**THEY DO NOT WORK
OUTSIDE OF THIS ROOM!**
