7-09-040 Signs.

A. Purpose. Signs are a necessary means of communicating information. Since signs are intended to be seen, they attract attention and are one (~~1~~) of the most visible and apparent aspects of a town's character. They tend to produce a lasting impression on residents and visitors, and they provide an indication of the commercial health of a business area and a town as a whole. Simplicity in design and restrained use of signs are necessary to prevent a sign overload, which creates clutter and is as confusing as no signs at all.

D. Basic Requirements.

(12) Window signs are allowed in business districts only. All combined window signage shall be limited to 10% of the total glass area on any one façade/side of a building.

E. Construction and maintenance of signs.

(1) All signs shall be constructed of durable and weatherproof material. They shall be maintained in safe structural condition and good visual appearance at all times, and no sign shall be left in a dangerous or defective state. The Building Inspector shall have the authority to inspect any sign and order the owner to paint, repair or remove a sign which constitutes a hazard or a nuisance due to improper or illegal installation, dilapidation, damage, or inadequate maintenance.

(3) Any sign, together with its structural elements, which advertises or calls attention to any business or services of owner or tenant which are no longer operational shall be removed by the owner within thirty (30) days of the date on which the operation ceased.

G. Signs in business districts.

(1) Type, size, and number of signs. There shall not be more than the following on each lot:

(c) Highway Business District.

[1] Lot with one (1) or two (2) tenants.

[a] Freestanding sign. Not more than one (1) freestanding sign, size not to exceed one hundred (100) square feet, height not to exceed twenty (20) feet as measured from the ground to the highest point of the sign. The freestanding sign shall indicate the name(s) of the tenant(s) and address of the facility, in a fixed manner, and may have an additional fifty (50) square feet of space for changeable-copy message. Electronic message centers may be used as part of a freestanding sign.

[b] Wall sign: one (1) wall sign, size not to exceed 10% of the wall size to which the sign is affixed or two-one hundred fifty (250+00) square feet, whichever is smaller, for each tenant, or two (2) wall signs with a combined total area not to exceed two hundred fifty (250) one hundred (100) square feet for each tenant.

[2] Lot with three (3) or more tenants.

[a] Freestanding sign. Not more than one (1) freestanding sign for each ten (10) tenants located on the lot; size not to exceed one hundred (100) square feet, height not to exceed twenty (20) feet as measured from the ground to the highest point of the sign. The freestanding sign shall indicate the name and address of the facility in a fixed manner and may have space for listings of individual tenants and may have an additional fifty (50) square feet of space for changeable-copy message. When there is more than one (1) freestanding sign on a lot, there shall be not less than fifty (50) feet between signs, and no sign shall be located to obstruct the viewing of any other sign.

[3][b] Wall sign: one (1) wall sign, size not to exceed 10% of the wall size to which the sign is affixed or two-one hundred fifty (250+00) square feet, whichever is smaller, for each tenant, or two (2) wall signs with a combined total area not to exceed two hundred fifty (250) one hundred (100) square feet for each tenant.

[4][c] Directory sign. There may be not more than one (1) directory of the tenants of the building affixed to the exterior wall of the building. Such directory sign shall not exceed an area determined on the basis of one (1) square foot for each occupant or tenant of the building.

(3) Temporary signs. Signs for the purpose of announcing a special day or event and not to exist more than fifty-six (56) thirty (30) days per calendar year shall be permitted. The Select Board may grant an extension of this time period. One (1) exterior movable sign shall be limited to fifteen (15) square feet. One (1) temporary sign shall be permitted for each freestanding sign as permitted by this section. Temporary signs shall be placed a minimum distance of thirty (30) feet apart from each other. Temporary signs affixed to the inside of a window shall not exceed thirty percent (30%) of the window area of the storefront. To place a temporary sign on property other than that which is being advertised, the applicant must have written permission from the landowner and the Select Board.

K. Permit not required. The following types of signs do not require a permit from the Building Inspector:
